SIGNATURE FEATURES

SECURITY

PATENTED ZIP SECURITECH® 1 & 2

SECURITECH® is a unique closing system patented by DELSEY PARIS. Thanks to its double layers, the zipper of your luggage is 3 times more resistant than a standard zipper. The new version is thinner, lighter, and just as strong.

SECURE CLOSURE SYSTEMS FOR BACKPACKS

Our backpacks feature secure and easy-to-use closure systems to keep your belongings protected. The Securflap model uses an innovative buckle that locks with an audible click, while the Turenne backpack is equipped with smart interlocking zipper tabs for added security.

MOBILITY

SHOCK-ABSORBING WHEELS

DELSEY's exclusive suspension wheel system minimizes rolling vibration and noise, providing a smoother, quieter, and more comfortable travel experience.

MULTI-STEP TROLLEY SYSTEM

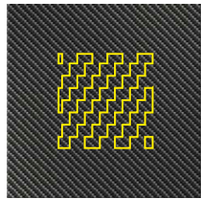

DELSEY's multi-step trolley is designed to adapt seamlessly to your travel needs, offering personalized comfort and effortless maneuverability. Easily customize the handle to multiple heights, ensuring optimal posture and reduced strain during your journey.

CONVENIENCE & LIGHTNESS

PATENTED OVERWEIGHT INDICATOR

This innovative, patented feature alerts you if your luggage exceeds 22 kg / 48.5 lbs., helping you avoid overweight fees at check-in. Integrated seamlessly into the carry handle, it requires no batteries for effortless use.

EXCLUSIVE VECTRIX™ TECHNOLOGY

With Helium Ultimate, DELSEY unveils its lightest suitcase ever - crafted from the brand's exclusive Vectrix™ technology, an ultra-light, shock-resistant material made of self-reinforced woven polycarbonate that effortlessly regains its shape after every journey.

INTERIOR COMFORT

REMOVABLE & WASHABLE LINING

The interior lining can be easily unzipped and removed, then machine-washed on delicate cycle to eliminate dust, odors, and travel residues. A practical feature that ensures the inside of your suitcase always stays fresh, and ready for your next journey.

ANTI-MICROBIAL LINING

The lining is coated with antimicrobial technology, designed to inhibit the growth of bacteria and maintain a cleaner interior. This innovation not only helps prevent unpleasant odors from developing but also keeps your belongings fresh and hygienic throughout your travels.

INGENIOUS DESIGN INSIDE & OUT

HYBRID BACKPACKS

The backpack is equipped with a strong shell that is 50% recycled, making it an ultra-strong and durable product. Its inimitable design offers a unique style!

2-IN-1 GARMENT DUFFEL BAG

Combining the functionality of a garment bag with the convenience of a duffel, this carry-on friendly 2-in-1 bag is ideal for short business trips, weddings, or weekend getaways, keeping formalwear wrinkle-free without checking luggage.

PET CARRIER

3 innovative formats combining safety and comfort: the backpack, the shoulder bag or the wheeled bag with trolley system make it easy to transport a cat or small dog. These bags are made from recycled, hard-wearing materials and feature a number of clever innovations. For your pet's safety and comfort, the bag has belt loops on the outside and a removable, washable cushion on the inside.

FOLDABLE BAG

Travel bag formats that can now be folded and unfolded to suit travel needs.

**Size and weight restrictions for carry-on luggage vary by airline; check with your airline.*

BAGS WITH WIDE-MOUTH OPENING

Our backpacks and weekender bags with wide-mouth opening allow ease of packing and provide great visibility and access to your laptop, electronics, files and personal belongings.

TOP OPENING

Open the front of the suitcase, and you'll find a deep compartment and two mesh pockets, perfect for storing all your belongings. Adjustable straps keep your belongings secure.

TRUNK

This format is inspired by the trunks used for travelling at the end of the 19th century. The trunk is ideal for long journeys, particularly by car and train, and slides perfectly into the trunk of your car. Less wide and deeper than a traditional suitcase, this new format offers you optimal volume while remaining as stable as possible. Bonus: the front handle makes it easy to pick up!

STACKABLE

No matter their size, our stackable suitcases can be stacked and secured on top of one another, thanks to the interlocking grooves of the luggage shells. This feature is useful when loading luggage in the trunk of car. The suitcases can also be used as a great storage solution, when not traveling.

INGENIOUS DESIGN INSIDE & OUT

E-BIKE BATTERY COMPARTMENT

Backpack equipped with a dedicated, reinforced compartment designed to store your battery - keeping it protected, secure, and easy to access on the go.

BUSINESS COMPARTMENT

A practical business suitcase format! The laptop and tablet are secured in the front pocket, with a dedicated padded compartment. Ideal for keeping your essentials close at hand when you're on the move.

SMART COMPARTMENT

Our drop-bottom compartment provides a dedicated space for shoes or laundry, preventing dirt or odors from reaching your main clothing compartment, while maintaining easy access on the go.

SMART BAND

DELSEY's smart band allows you to securely attach a smaller bag, such as a backpack or tote, to the telescopic handle of your rolling luggage, keeping your hands free and your essentials together, for effortless mobility.

UNIVERSAL SIZES

Our Underseater and Cabin Size* 800 make every trip easier, wherever you're headed.

The compact Underseater fits under most airplane seats, perfect for short stays or keeping essentials close.
Cabin Size 800 offers extra space while staying within carry-on limits and fitting most airline policies.

Both are designed for smart packing and easy movement, so you can travel light without leaving anything behind.

REMOVABLE WHEELS

Our pet carrier with removable wheels provides versatility, letting you detach the wheels to meet airline size requirements or save storage space, while also allowing you to roll it for added convenience and lighter handling.

BLUETOOTH TRACKER HOLDER

Our dedicated Bluetooth tracker holder keeps your tracking device securely in place for peace of mind during travel. It ensures easy access, and prevents loss or misplacement.
