* Wheel assemblies measuring 55mm high is included in height. Front projection of digital lock or handle is not included in depth.

TEST RESULTS

▲ 1,010℃ Test result from Fire Resistant Safe.

■ UL, Class 350-Fire test

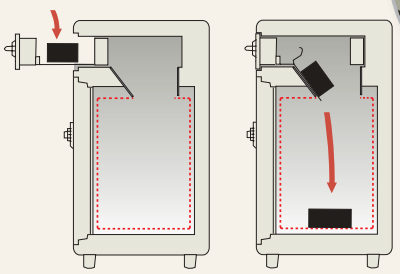

■ Test Result

Fire endurance test: Crumpled paper balls or newsprint were readable without scorch or burnt out. Explosion hazard: No explosion of the cabinet was noted as a result of the quick thermal shock.
