## OUR STORY

Lipault is a French brand created in 2005. From our Paris offices, we design bags, luggage and accessories for travel and for every day. Each season, we deliver light, cool and casual-chic essentials to carry everywhere.

Our collections are designed for those always on the move: women and men with a free spirit, life explorers and everyday fashion chameleons. They are inspired by a minimalist vision and easy to combine with any silhouette. Conceived to make your fast-paced life better, they are light, full of colours, functional, easy to carry and always ready to go.

At Lipault, our products are mostly made of reinforced twill nylon or polyurethane with a rubber finish, two strong, water-repellent fabrics. The softness of the twill nylon will make sure you never lose space when packing. The special weave of twill nylon catches the light perfectly to deliver radiant colours, such as deep blue or vibrant bordeaux. The soft touch and matte effect of the PU Rubber brings an urban and fashionable vibe. As colour is our motto, we are committed to select its most beautiful palettes, explore every shade and deliver its most perfect tones, whether they are vibrant statements or timeless variations.

Colour conveys the values we stand for. A mischievous, powerful and positive spirit always at your side.

We create stylish, functional and minimalist luggage, daily bags and accessories that spread the power of a simple and positive mindset.

## OUR COLOURS

Lipault's signature colour palette draws its inspiration from both timeless fashion classics and the season's boldest trends.

As colour experts, we put real research into every shade, studying undertones and hues until we land on the exact tone that feels unmistakably Lipault.

Each year, our core collection is reimagined, refreshed with new shades that capture the mood of the moment, while staying true to the spirit of the brand.

Alongside it, a semi-core and seasonal palette bring extra energy for a limited time, giving every collection room to surprise.

# LOST IN BERLIN

Digging into the Berlin industrial mood and underground inspiration, this collection brings an even sleeker touch to Lipault collections. The rubber look and water-resistant fabric turn this collection into the ultimate match for every trendy city traveler. Beyond the soft-touch fabric, each style is thoughtfully designed to keep your things both perfectly organized and accessible. To perfect the journey, Lipault selected its most equipped styles with smart pockets and adapted interiors to fit all your short-trip essentials.

Taking things a step further, the latest updates to the suitcases offer an even more premium experience. The introduction of a TSA lock ensures extra security, the new reversed zippers add a sleek finish, and the debossed logo enhances the minimalist aesthetic, making these suitcases not just functional, but truly refined. Fashionable and convenient down to the details, each style will make you want to travel not only to Berlin, but pretty much all cities around the world.

## FABRIC

With LOST IN BERLIN, Lipault adds a soft touch to its assortment. The fabric is made of water-repellent polyurethane, with a rubber effect and a soft-touch. Even with this type of material, the products stay lightweight.

# PLUME

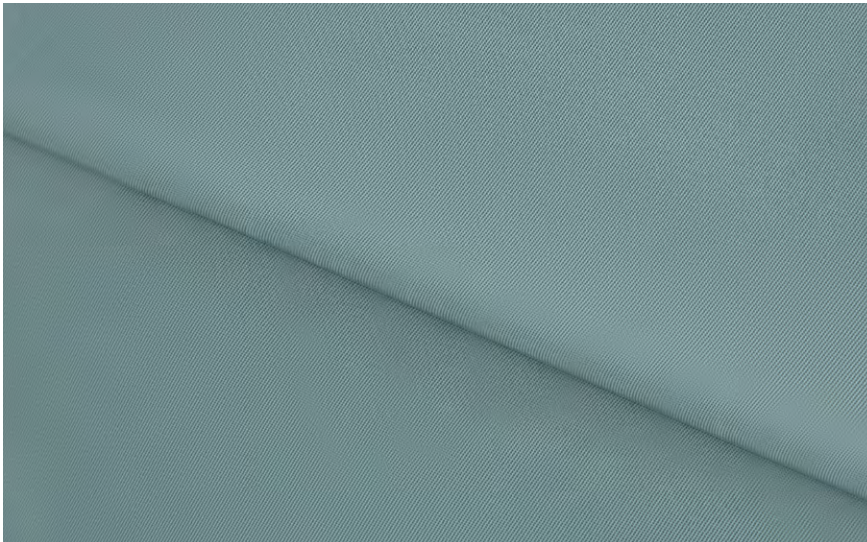

Plume iconic design gives travellers a taste of a new age of travel.

Beyond the iconic style, sleek lines and padded handles that made Lipault signature, the design features the brand unconditional affection for minimalist yet very efficient travel items. Covering today's traveller every needs – including accessible pockets, stable double wheels, customisable travel tag and TSA lock – this iconic silhouette offers both a compact design and a great capacity. The famous monochrome look plays a subtle contrast with a Navy coloured interior integrating an 'easy access' pocket to facilitate your journey. Making it even easier, each suitcase pairs with any smart-sleeve item in Lipault collections, including the City Plume companion experts.

Of course, Lipault brings in its unique colourful style, sharing an ever-refreshing vision of travel with each of the three suitcases size coming in a wide palette of colours. The trendiest ones (semi-core and seasonals) even feature a very graphic LIPAULT webbing highlighting the casual chic brand style. To keep everything organized, the iconic suitcase counts three zipped pockets in addition to its adjustable ribbons. Both perfectly equipped and thoughtfully design, it surely stands out among your travel must-have.

## NYLON FABRIC

Our 70D Twill Nylon is water-repellent thanks to a special treatment against water penetration. It allows the water to leave only beads on the fabric and doesn't go inside it (it does not mean that the fabric is waterproof, do not let your product in contact with water for too long).

We do several runs of tests which include for instance environmental test to determine the effect that high and low temperatures have on luggage materials and other components.
